Introduction:

HOTSOL a pioneer in ,Computer , security and hardware items, offshore development and IT consultancy services, has been supplying hardware's and creating various software & web solutions, as per the industry & business requirements, since its inception. Our organization, offering efficient solutions, is always keen on learning & implementing new technologies in the most innovative manner, for better performance and savings.

Located in ISLAMABAD, the heart of Pakistan, it was duly registered with Government of Pakistan.. Our core strengths of working as per the client's requirements, reasonable & affordable pricing, and high quality of services offered, enables us to build a long-term relationship with all our customers.

What makes us truly unique is the fact that we keep a close & keen eye on the latest market trends, and are quick to incorporate any novelties discovered henceforth. This gives us an edge over our competitors. There is a lot of turbulence in the IT market and as a result, rapid changes are happening. To counter these changes, AutoPlay focuses on research & makes it a point that the entire team is acquainted with these latest technologies. This has proved to be our forte, and has helped us prove ourselves as a complete solutions provider. The crux of the matter is that we are a progressive organization and this reflects in our motto, "Innovation through Intelligence.

Our Philosophy:

We stay committed to our motto, "Innovation through Intelligence", to provide uniquely qualitative IT solutions.

Our Vision:

HOTSOL envisions building an institution, which, constantly and consistently, keeps providing innovative solutions. Our long-term vision incorporates the following:

- Innovation through intelligence in Information Technology.
- Keep improving as an organization to take IT to another level altogether.
- Providing quality IT solutions to various organizations around the globe.

Our Core Competencies:

What's make **HOTSOL** first choice? Why we are so successful? Why our clientele increasing day by day? Of-course we have few reason behind all that:

- Ever-learning approach
- Innovation through Intelligence
- Sheer Customer-delight
- Hard-working intelligence
